Lab License Application

You are welcome to include the following information with your application:

1. A brief description of your institution and/or mission statement.
2. Any institution specific collateral (brochure, press releases, copy of ads, etc.)

Educational Program Requirements:

1. There must be one authorized school contact for licensing issues and student discounts.
2. A signed multiple educational license agreement.
3. Educational discounted software is non-transferable. It is a full featured version of CINEMA 4D XL without limitations. However the school cannot resell or transfer the software to another person or entity.

Educational Program Pricing:

Subject to approval of application, participating schools enjoy extremely low cost unit pricing. Purchase orders will be accepted from accredited institutions. One box with one set of manuals will be shipped with every order. Additional manuals may be purchased.

Hardware Configuration of your Lab (VERY IMPORTANT - YOU MUST INCLUDE HOW MANY OF EACH):

How many computers and what type? Mac_____ Win 9x/NT_____ Unix_____ Alpha_____ Other_____

Multiple Seat Lab License Guidelines

MAXON Computer, Inc. (hereinafter "the Company") gives permission to _____ (hereinafter "the School") to use CINEMA 4D XL (hereinafter "the Software") within one lab at the School's department or facility solely for the use of training students in the Software. The authorized representative of the school

_____ (hereinafter, "the Authorized Representative"), by signing the agreement acknowledges and agrees to adhere to the following provisions:

1. Computers where the Software is installed must be under the reasonable direct supervision of the Authorized Representative.
2. The School will only use the Software for instructional purposes. The Software will not be used for commercial purposes. The Software will not be utilized to create content for profit, except in conjunction with fund raising events or funding for the School's programs.
3. The School will make its best efforts to protect the Software from piracy. Transferring or installing the Software to CPUs within the lab must be done by or under the supervision of the Authorized Representative of the School.
4. The Authorized Representative will inform the Company in the event of a security breakdown where piracy has occurred. The Company will, at its discretion, take action to deter additional piracy.
5. Students must be informed that the software is only to be used within the lab. However, students of the School are authorized to purchase their own copy of the Software at a discounted price, as registered students of the School. Student discount forms must be signed by the Authorized Representatives of the school.
6. Manuals will not be re-fabricated, copied or reprinted. PDF versions of the manuals will not be printed onto hard copy.

Violation of any of these provisions will result in the revocation of the School as an authorized training center for the Software. The School would not be eligible for discounts on future upgrades and may be refused upgrades even at full cost. If the School is suspected of facilitating the distribution of its educational copies, the Company will refer the School and its actions to the proper authorities.

I hereby understand and agree to the provisions above. I am authorized to sign this form as the Authorized Representative of the School.
